

2nd MARBEF Training Course on

Chemical Methods in Marine Ecology Microorganisms

Naples, Italy

9th-12th September 2008

TOPICS:

Microalgal toxins, Plankton interactions,
Microbial ecology, Photobiochemistry,
Biosynthesis and Molecular Aspects.

TRAINING CLASSES:

Mass Spectrometry and Chromatographic
methods for analysis of toxins, pigments
and ecological mediators

Course Coordinator

Angelo Fontana

Adele Cutignano

Faculty (Preliminary)

Allan Cembella

Ernesto Fattorusso

Adrianna Ianora

Angela Falciatore

Christophe Brunet

Barbara Nicolaus

Georg Pohnert

Giulio Izzo
